

# Mini Kite

## Materials Needed:

- Tissue Paper
- Sewing Thread
- Gift wrapping shreds
- Scissors
- Scotch Tape

1. Using the template provided, trace kite pattern onto tissue paper and cut out.
2. Cut a piece of sewing thread (approx. 16" in length).
3. Gift wrapping shreds are already cut (this becomes the tail of the kite).
4. Tape the sewing thread to the tapered end of the tissue paper.
5. Tape the wrapping shred to the opposite end of the kite.
6. The kite will fly with ease - simply hold onto the string and kite will follow!
