

Music and Nature Just Go Together!

The Bird-Body Song

To the tune of “Heads, Shoulders, Knees and Toes”

Feathers (wave hands at side like wings), beaks (pull fingers together in front of nose), hollow bones (make open circle with thumbs and forefingers in front of eyes) and claws (make claws with hands)
Feathers, beaks, hollow bones and claws
Warm blood (rub arms), nests (cup hands) and eggs (make circle with hands) with shells so hard (tap head with hands)
Feathers, beaks, hollow bones and claws.

Can repeat and sing faster, repeat and leave out words, etc.

lyrics by Ginger Murphy

Habitat, Habitat

To the tune of “Lollipop, Lollipop”

Habitat, habitat, got to have a habitat
Habitat, habitat, got to have a habitat
Food (hands on belly), water (hands over mouth) shelter (hands over head) space (arms wide)
Every animal needs a place
Habitat, habitat, got to have a habitat
Habitat, habitat, got to have a habitat,
Ooohhh!

lyrics by Ginger Murphy, Foster Brown
