Explore

**Looking for something your family can complete in one weekend or even a single day? Then Explore is for you!**

After completing just five requirements on a property, each participant is eligible to purchase a unique pin representing that property (available only through Explore.) There are 33 participating Indiana State Parks and Reservoirs — that means there are also 33 different pins that your family can collect!

**To be eligible to purchase a property’s unique pin, here is what your family needs to do:**

- Attend one interpretive program, led by a property interpreter. Check program schedules in advance at [www.interpretiveservices.IN.gov/](http://www.interpretiveservices.IN.gov/)
- Complete one hour of volunteer time.
- Report to the interpreter, either orally or in writing, about how your volunteer time benefited the property and yourself.
- Hike for at least 30 minutes on park trails or roads.
- Complete a site-specific activity (30-45 minutes in length) assigned by the interpretive naturalist.

As your family completes the requirements for each property, make sure an interpreter initials it to mark it as completed. When all 5 requirements for a property have been completed, bring your initialed brochure to the property office (or Nature Center Gift Store, if applicable) to purchase the unique pin for that property.

**Complete just one property... or try for all 33!**
