MARY'S MESSAGE

Mary Pruess

President and GM, WNIT Public Television

Spring is a time for re-birth and WNIT celebrates the season with several major initiatives.

On March 19 — two days before the vernal equinox — WNIT premieres the latest of its local productions, “Experience Michiana.” The program will be broadcast every weekday on 34.1 at 6:30pm and on WNIT InFocus 34.2 at 8pm. This exciting project is made possible by our newly remodeled facility and is another example of our delivering on the promise of the Center for Public Media. Broadcast personality Gordy Young hosts the program, which features local news, reviews of music, movies and performing arts, lively interviews with Michiana headline-makers and behind-the-scenes looks at popular Michiana hot spots. It’s WNIT’s magazine-of-the-air and promises to enrich the lives of viewers of all ages and interests.

April is National Child Abuse Prevention month and WNIT will present a three-part series on this important and sensitive topic. In mid-April we will broadcast two live, town-hall-style meetings featuring a panel of experts and an audience of concerned citizens, hosted by Gary Sieber, Kelly Morgan and Amanda Ceravolo. The two programs are each an hour in length and will address “Recognizing and Reporting” child abuse in the first and “Consequences” of child abuse in the second. A third program, an episode of our regular ASK AN EXPERT series, will address issues raised in the first two programs as well as those asked by viewers calling into the program.

Also in April, WNIT will again partner with the St. Joseph County Public Library as part of its ONE BOOK, ONE MICHIANA event. The title of this year’s book is “The Adventures of Sherlock Holmes” by Sir Arthur Conan Doyle and three of its stories will be discussed as an episode of our popular DINNER AND A BOOK with Gail Martin and her guest, Doug Farmwald. The dinner portion of the program, Gail promises, will be a “Sherlockian treat.”

Speaking of our new facility, our Community Room continues to provide valuable meeting and discussion space for the community. It has tables and chairs to accommodate about 70 persons and is available for your business or organization at a very reasonable fee. For more information, please call or email the station and ask about our Community Room. We’re also happy to provide tours of the facility for your club or group. The tour takes about half an hour and is available at no charge.

From new programs to lively and significant local discussions to community activity facilities, WNIT’s Center for Public Media helps us make it all possible, and we thank all of you for making the Center for Public Media possible.

INTO THE DEEP: AMERICA, WHALING & THE WORLD: AMERICAN EXPERIENCE

TUESDAY, MARCH 20, 8PM 
FRIDAY, MARCH 23, 9PM 
SATURDAY, MARCH 24, 8PM 

For two centuries, American whale oil lit the world — powering the start of the industrial revolution and laying the groundwork for a truly global economy. From its stunning rise as an economic force in the 18th century to its precipitous decline in the decades following the Civil War, the whaling industry mapped millions of miles of uncharted ocean, opened new seaways and markets and employed the world’s most multi-cultural workforce.

NATURE

WEDNESDAYS, 8PM 
“SURVIVORS OF THE FIRESTORM”
– MARCH 21

The bushfires that tore through the Australian state of Victoria in February 2009 incinerated over a million acres of land, including key mountain ash forest ecosystems. Fires are a natural force of nature that spur regeneration, but the immediate aftermath of this giant firestorm was devastation. Kangaroos and koalas, wombats and wallabies, endangered possums and gliders, lizards, echidnas, birds of all kinds, and even fish that lived among these eucalypts were overcome by the flames.

“OCEAN GIANTS” – MARCH 28

Whales and dolphins remain a constant source of fascination. But how much do we really know about them? Whales and dolphins, known as cetaceans, may appear to be totally alien to us — but with their mental ability, group communication and the recent discovery that dolphins have individual names, they are closer to us than we ever imagined.

WEDNESDAYS, 9PM
“EXTREME ICE” – MARCH 21

As the world warms, the threat from rising sea levels poses an alarming potential for disaster. Some models now project a one-meter sea level rise over the next century, which could displace millions of people, from Florida to Bangladesh, and require trillions of dollars’ investment in coastal infrastructure. But these models don’t reflect recent findings that glaciers in Greenland and Antarctica are melting at an ever faster rate.

FENWAY PARK AT 100
MONDAY, MARCH 26, 10PM AND
TUESDAY, MARCH 27, 8PM

FENWAY PARK AT 100 celebrates the centennial of the oldest (and smallest) ballpark in America. Using a Red Sox/Yankees game as a thread, the film tells the story of Fenway's long history as a venue for sports and as a public space: masses for WWI soldiers, a 1922 Irish Republican rally, FDR's last presidential campaign speech, concerts by Bruce Springsteen and others. A decade ago, it looked as though Fenway would be largely destroyed and replaced with a new ballpark. Luckily, wiser heads prevailed and one of Boston's most popular attractions, and a landmark for baseball fans everywhere, survived.

TRIANGLE FIRE: AMERICAN EXPERIENCE

TUESDAY, MARCH 27, 9PM
AND SATURDAY, MARCH 31, 9PM

On March 25, 1911, a fire broke out in the Triangle Shirtwaist Factory in New York's Greenwich Village. The blaze ripped through the congested loft; huge piles of trimmings fed the flames. Petrified workers desperately tried to make their way downstairs, but the factory owners kept the doors on the ninth floor locked, and the woefully inadequate fire escape soon crumpled. Hundreds of horrified on-lookers arrived just in time to see young men and women jumping from the windows. By the time the fire had burned itself out, 146 people were dead.

QUEST FOR THE LOST MAYA

The film surveys their dramatic rise to prominence in the "pre-classic era" (800-700 BC) of the Maya, as well as new evidence of the collapse of their civilization in the 800-900s AD.

March 2012 Spring Membership Campaign

WNIT's Spring Membership Campaign begins Friday, March 2 and runs through Sunday, March 18. Our on-air Membership Campaigns remain the most effective way of encouraging viewers to join the WNIT family of supporters. While these drives represent less than two percent of our annual broadcast hours, they do provide WNIT with the majority of revenue required to purchase and produce the regular and local programming enjoyed by you and everyone in northern Indiana and southwestern Michigan.

So get ready to experience an interesting and enlightening line-up of special programs for the entire family. And be sure to tell your family and friends why you think supporting WNIT is important. "It's Viewers Like You" who make the transition to a contributing member of WNIT, who make a difference to everyone in our community.

**Thank you for making that transition
and supporting WNIT!**

Last Chance for Tickets to Human Nature!

WNIT has your exclusive opportunity for best in-house tickets as well as a limited number of meet and greets for Human Nature appearing at the Morris Performing Arts Center on Sunday, March 25. Human Nature is a multi-platinum group from Australia currently appearing in Las Vegas to sell-out crowds. Their special, Human Nature Sings Motown with Special Guest Smokey Robinson, introduced them to the PBS audience this past December and is sure to thrill Motown enthusiasts from the opening act to the rousing finale. For more information on tickets and meet and greets, go to www.wnit.org or call 574.675.9648.

Thank You Gifts

If you requested a thank-you gift with your membership contribution, you can expect it to arrive four to six weeks after we process your payment. If you have a question or inquiry about your thank you gift, please send an email to cmcraner@wnit.org or jschloss@wnit.org with "Thank You Gift" in the subject line.

DEVELOPMENT NEWS

WNIT and PNC have teamed up to help children learn basic financial concepts, such as making choices and the importance of saving, spending and sharing.

Parents and caregivers can see how easy it is to introduce financial concepts and skills into their everyday routines and experiences with their children using activities and tips from the "For Me, for You, for Later: First Steps to Spending, Sharing, and Saving™" kit, developed by Sesame Workshop, the nonprofit educational organization behind Sesame Street®, in partnership with PNC.

For more tips and resources on this topic and to find free materials featuring Sesame Street characters, visit pncgrowupgreat.com.

Check out wnit.org for more information on this fun and educational program.

Martha Jane Friedrich knows the power of giving.

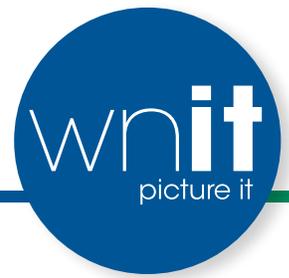

"I think it's important to give to the generations that come after me. And that's why a gift to public television is so important."

Martha Jane included her public television station in her will. Consider joining the community of people who want public television to span generations.

Please contact Joanne Schloss (574) 675-9648 ext. 311, jschloss@wnit.org to notify us of your intent.

Experience Michiana on WNIT

On Monday, March 19, WNIT will launch its newest production, "Experience Michiana." Popular local broadcast personality Gordy Young will host the program, which will air Monday through Friday at 6:30pm on 34.1.

"Experience Michiana" is a half hour magazine-style series that highlights our region with daily information and insights regarding the economy, political issues, outdoors and nature, as well as culture and the arts. It's informative and entertaining, providing a fresh experience for the whole family.

For younger viewers, there are segments that spotlight electronic games and DVD reviews, nature and outdoor exploration, even dating dos and don'ts. We'll feature places to hang out, area schools and young people who are making a difference.

For adults there will be political discussions, health and wellness features, financial segments, music and movie reviews as well things to do and places to see as the weekend approaches. Features will include Michiana Behind the Scenes, a look at some of the well-known venues in our area and how they function. We'll explore such spots as Potawatomi Zoo, restaurants, art galleries, theaters and more. WNIT will also partner with a local news station to bring viewers highlights of the day's news stories. Elected officials throughout the area will speak about issues affecting their regions.

Mark your calendar for March 19 and the launch of "Experience Michiana"!

Meet the Engineering Team

The WNIT engineering staff keeps the signal on the air and looking good. They maintain everything from TV cameras to TV transmitters, from computers to diesel generators, from heat pumps to video tape recorders, and often have to do it on short notice after hours.

BRIAN HOOVER

Director of Broadcast Operations

Prior to joining WNIT in 1997, he spent ten years with WSBT Radio and Television as an engineering supervisor and seven years with WNDU Radio and Television as a staff engineer as well as consulting for several local radio stations. He is a 1981 graduate of IVTC and a 1991 graduate of Bethel College with degrees in Electronic Communications and Organizational Management.

MIKE KAUFFMAN

Engineering Supervisor

Also joining our staff in 1997, Mike came to WNIT via WSBT Radio and Television, where he worked for 24 years as an engineer and engineering supervisor while running his own two-way radio installation and service business and doing consulting work for several local radio stations. He is a 1968 graduate of Lake Michigan College with a degree in Electronics Communications.

TOM SZAWARA

Staff Engineer

Tom joined WNIT in early 2009, previously spending 17 years with WSBT Radio and Television as a staff engineer and several years with Nortel as a central office equipment technician. He is a graduate of ITT Technical Institute.

TIM CROTHERS

Staff Engineer

Tim also came to WNIT in 2009, having previously worked as an engineer for WNDU Television for 22 years along with engineering positions at Crown Broadcast and Mor/Ryde in Elkhart. He is a graduate of Valparaiso Technical Institute.
