PBS Michiana – WNIT

Dear friends-

If you opened this issue and were surprised to see my face on the cover, I assure you: I had a similar reaction!

But, it has been a pretty good year for the people making television here at PBS Michiana – WNIT. While being named the YWCA of North Central Indiana's Woman of the Year is a big honor, none of us is doing this alone. Whatever recognition comes my way (or the way of the station) is a direct result of this team showing up every day and doing important work across every corner of our building.

This fall, our work has been recognized with five Public Media Award nominations (and three wins!), and we've also received two Indiana Broadcasters Association nominations. That recognition belongs to a lot of people throughout the station, and I'm so proud of the work our production team continues to put on your screens. You'll get a behind-the-scenes look at some of that work in this month's issue, along with a chance to get to know some of the people who make it happen.

We're also celebrating a few new beginnings this fall! The new PBS Michiana member portal launches on our website in October, giving you even more control over your membership. You can go online and make an additional gift, adjust your monthly giving, or learn more about your member benefits.

NOVA: Evolutions is our latest PBS national science highlight, a truly epic journey of life's changes through time. If you haven't checked out *The Gold* yet, you absolutely must: Hugh Bonneville, an accidental multimillion dollar heist, and a new season starting this month. And in November, Ken Burns is back with *Crime and Punishment in America*, looking at the history of criminal justice in America from colonial times to today.

And after teaching millions of children to "look in a book" and learn to read with science-backed repetition and the catchiest songs, Whyatt and friends are back with a brand new series: *Super Why!'s Comic Book Adventures*. (For my household, this is the most exciting news of the month.)

Thank you all for watching. Thank you for supporting our work. And thank you for being such a vital part of this community we're all so proud to call home!

Gratefully,

Amanda Miller Kelley

NOVA: Evolution

Ponder this: All the incredible diversity of animal life on Earth sprang from a single organism. Every animal, no matter how weird, is related to every other. And behind each species is an incredible story of the millions of generations that gave rise to them. In this landmark series—featuring passionate scientists, gorgeous photography, and stunning animations of long-lost ancestors—discover how every

animal we know and love today sprang from creatures that looked nothing like them. Full of surprising twists and turns over billions of years, each chapter in this epic tale reveals how animal life became so diverse and resilient through the awesome power of evolution.

***Evolution* is a five-part series premiering October 14, 2026 at 9pm on PBS.**

Behind the Scenes Celebrating the People Who Bring PBS Michiana's Stories to Life

We pulled a few photos from our files to share with you, but the truth is, there is *no way* a handful of photographs can capture just how much our production team does for PBS Michiana – WNIT.

Long before a program reaches your television or screen, the work has already begun. It starts with an idea. Then comes the research, finding the right places to go and people to interview, coordinating schedules, packing and hauling equipment, setting up cameras, lighting and audio, working with talent, directing, filming, and adapting when the unexpected inevitably happens. After that comes editing, refining, and putting all the pieces together to tell a story worth sharing.

And that's only part of it.

Our production team creates weekly programs, specials, documentaries, promotional pieces, social media content, and work-for-hire projects. They travel throughout our communities, support public premieres, teach, host events, speak with audiences, collaborate with organizations and community partners, and continually find new stories to tell.

The list really does go on and on.

So instead of trying to show you everything they do, we simply want to take a moment to recognize the people behind the work. PBS Michiana – WNIT is fortunate to have a hardworking, talented, and award-winning production team whose creativity and dedication can be seen in productions throughout our region.

To our production team: thank you for the long days, the problem-solving, the creativity, the attention to detail, and all the work that happens both in front of and behind the camera. Thank you for the excellence you bring to PBS Michiana – WNIT and, most importantly, for the stories you help us share with the Michiana community.

He appreciates the creativity, problem-solving, and attention to detail that go into both his professional work and personal hobbies.
